including certificate

INTERCULTURAL TRAINER ACADEMY

Intercultural competence is widely considered to be one of the key skills needed to succeed in ever more diverse societies and workplaces. Still, it is one thing to acquire intercultural competence, but quite another to pass it on to others. It requires extensive knowledge and skills.

This is what the Intercultural Trainer Academy will equip you with. It is an intensive 10-day program that does not only allow you to deepen your understanding of theoretical frameworks regarding intercultural learning, but also to further develop your practical competencies and knowledge, enabling you to work as an intercultural trainer in various settings including face-to-face as well as online trainings. Upon successful completion of the course, participants are awarded the certificate “Intercultural Trainer” issued by InterCultur gGmbH.

Target Group

- Trainers interested in intercultural context
- Professionals, teachers, practitioners
- Advanced university students

The Intercultural Trainer Academy combines a rich theoretical perspective with hands-on practical elements, enabling participants:

- to deepen their understanding of culture and how it influences human perception, cognition, and behaviour
- to familiarize themselves with training design principles, training methods, basics of visualization, and didactic skills
- to develop their facilitation skills in different practice session.

Instructors

- Prof. Annette Gisevius, InterCultur gGmbH
- Nele Beck, InterCultur gGmbH
- Dr. Nadine Binder, Training and Coaching

Virtual Edition

Since 2021, we offer our Intercultural Trainer Academy as a virtual event, covering the same content as our face-to-face Academies plus additional content on how to design and deliver powerful online training.

While course hours in the virtual course remain the same, we will not spend the entire day in live Zoom sessions.

We use a variety of creative ways of integrating self-study, self-paced and self-organized work in pairs or small groups, as well as working with the physical space around you to incorporate movement and reduce time spent in front of screens.
